On **September 8-9, 2021** at the EXPO XXI in Warsaw will take place another edition of the PCI Days Fair. It is a unique event dedicated to the pharmaceutical and cosmetic industries.

These are the only such fairs in Poland that combine both industries in an extraordinary and practical way.

Visitors to the Fair are representatives of companies producing drugs and cosmetics, who have the opportunity to see a wide range of products for production: from raw materials, through laboratory, logistics and technological services, to packaging, storage and private label.

## ACCOMPANYING EVENTS

- 1** Conference 'Be Inspired - New Raw Materials 2021/2022' - producers and suppliers will present their newest raw materials,
- 2** Microbiological conference organized by the Dr Nowaczyk Centrum Badań i Innowacji,
- 3** Workshops for buyers conducted by the Polish Supply Management Leaders,
- 4** Pharmaceutical Inspiration Zone and Cosmetic Inspiration Zone - numerous lectures on trends, forecasts and solutions, given by industry experts.

A definite novelty of this year's Fair will be the innovative conference "**Be Inspired - Raw Material News 2021/2022**", during which exhibitors offering raw materials will have the opportunity to present their latest raw material hit in the form of a short speech. On the other hand, the conference entitled The microbiology of cosmetic products and the production environment will be especially dedicated to employees of laboratories and R&D departments and all other interested guests. What's more, during PCI Days 2021, specialists from PSML will lead the next edition of workshops for buyers and thus additionally enrich the content program.
